From Cyrus to Alexander Aug 24 2020 Around 550 B.C.E. the Persian people—who were previously practically unknown in the annals of history—emerged from their base in southern Iran (Fars) and engaged in a monumental adventure that, under the leadership of Cyrus the Great and his successors, culminated in the creation of an immense Empire that stretched from central Asia to Upper Egypt, from the Indus to the Danube. The Persian (or Achaemenid, named for its reigning dynasty) Empire assimilated an astonishing diversity of lands, peoples, languages, and cultures. This conquest of Near Eastern lands completely altered the history of the world: for the first time, a monolithic State as vast as the future Roman Empire arose, expanded, and matured in the course of more than two centuries (530–330) and endured until the death of Alexander the Great (323), who from a geopolitical perspective was “the last of the Achaemenids.” Even today, the remains of the Empire—the terraces, palaces, reliefs, paintings, and enameled bricks of Pasargadae, Persepolis, and Susa; the impressive royal tombs of Naqsh-e Rostam; the monumental statue of Darius the Great—serve to remind visitors of the power and unprecedented luxury of the Great Kings and their loyal courtiers (the “Faithful Ones”). Though long eclipsed and overshadowed by the towering prestige of the “ancient Orient” and “eternal Greece,” Achaemenid history has emerged into fresh light during the last two decades. Freed from the tattered rags of “Oriental decadence” and “Asiatic stagnation,” research has also benefited from a continually growing number of discoveries that have provided important new evidence—including texts, as well as archaeological, numismatic, and iconographic artifacts. The evidence that this book assembles is voluminous and diverse: the citations of ancient documents and of the archaeological evidence permit the reader to follow the author in his role as a historian who, across space and time, attempts to understand how

such an Empire emerged, developed, and faded. Though firmly grounded in the evidence, the author’s discussions do not avoid persistent questions and regularly engages divergent interpretations and alternative hypotheses. This book is without precedent or equivalent, and also offers an exhaustive bibliography and thorough indexes. The French publication of this magisterial work in 1996 was acclaimed in newspapers and literary journals. Now *Histoire de l’Empire Perse: De Cyrus à Alexandre* is translated in its entirety in a revised edition, with the author himself reviewing the translation, correcting the original edition, and adding new documentation. Pierre Briant, Chaire Histoire et civilisation du monde achéménide et de l’empire d’Alexandre, Collège de France, is a specialist in the history of the Near East during the era of the Persian Empire and the conquests of Alexander. He is the author of numerous books. Peter T. Daniels, the translator, is an independent scholar, editor, and translator who studied at Cornell University and the University of Chicago. He lives and works in New York City.

Dakṣiṇa Kosala Jan 17 2020 This book deals with the early development of Śaivism in ancient Dakṣiṇa Kosala, the region that roughly corresponds to the modern state of Chhattisgarh, plus the districts of Sambalpur, Balangir and Kalahandi of Odisha (formerly Orissa). At the end of the sixth and the beginning of the seventh century, this region was under the control of the Pāṇḍava king Śivagupta alias 'Bālārjuna' hailing from Śrīpura (the modern village of Sirpur), who was a great patron of religion. Epigraphical evidence, supported by archaeological remains, has shown that by the time of Śivagupta's reign, which lasted for at least fifty-seven years, Dakṣiṇa Kosala was already a rich center of early Śaivism. In the context of this setting the following research questions were formulated: what circumstances fostered the rise and development of Śaivism in this area, and did the Skandapurāṇa, an important and contemporaneous religious scripture, play any role in that development? An answer to these questions would not only shed light on the religious processes at work in Dakṣiṇa Kosala, but would also touch upon the interplay of political, social, economic and geographical factors.

Islam in Malaysia Feb 27 2021 This book surveys the growth and development of Islam in Malaysia from the eleventh to the twenty-first century, investigating how Islam has shaped the social lives, languages, cultures and politics of both Muslims and non-Muslims in one of the most populous Muslim regions in the world. Khairudin Aljunied shows how Muslims in Malaysia built upon the legacy of their pre-Islamic past while

benefiting from Islamic ideas, values, and networks to found flourishing states and societies that have played an influential role in a globalizing world. He examines the movement of ideas, peoples, goods, technologies, arts, and cultures across into and out of Malaysia over the centuries. Interactions between Muslims and the local Malay population began as early as the eighth century, sustained by trade and the agency of Sufi as well as Arab, Indian, Persian, and Chinese scholars and missionaries. Aljunied looks at how Malay states and societies survived under colonial regimes that heightened racial and religious divisions, and how Muslims responded through violence as well as reformist movements. Although there have been tensions and skirmishes between Muslims and non-Muslims in Malaysia, they have learned in the main to co-exist harmoniously, creating a society comprising of a variety of distinct populations. This is the first book to provide a seamless account of the millennium-old venture of Islam in Malaysia.

Facing Mount Kenya Aug 16 2022 Facing Mount Kenya, first published in 1938, is a monograph on the life and customs of the Gikuyu people of central Kenya prior to their contact with Europeans. It is unique in anthropological literature for it gives an account of the social institutions and religious rites of an African people, permeated by the emotions that give to customs and observances their meaning. It is characterised by both insight and a tinge of romanticism. The author, proud of his African blood and ways of thought, takes the reader through a thorough and clear picture of Gikuyu life and customs, painting an almost utopian picture of their social norms and the sophisticated codes by which all aspects of the society were governed. This book is one of a kind, capturing and documenting traditions fast disappearing. It is therefore a must-read for all who want to learn about African culture.

A Thematic Commentary on the Qur'an Apr 12 2022 In a multi-faith world, Islam is widely regarded as dogmatic and exclusivist. Yet in the Qur'an we have a great and worthy example of how to live in diversity, of powerful scriptural tenets that lend themselves precisely to engagement with those of other faiths. As such Islam has much to add to the debate on Religious Pluralism. For Muslims the issue is a delicate one. Aside from being tolerant and respectful of other faiths, advocating freedom of faith, and peaceful coexistence for all humanity, Muslims have to intellectually engage on matters of religious truth whilst defending the validity of their own Islamic tenets. This study is focused on the Qur'anic text. It explores the Qur'anic conception of normative religious pluralism with a view to providing answers to questions such as whether the Qur'an itself regards normative religious pluralism as a value system or simply a method through which the Qur'anic world view can be actualized. In doing so the author corrects some highly controversial misquoted, mistranslated, and/or quoted out of context verses of the

Qur'an, including the so-called verse of the sword and the perception of not taking non-Muslims as friends. In reality, the Qur'an calls for freedom of faith and peaceful coexistence, but condemns oppression, religious persecution, and those who initiate hostilities. In this way it not only invokes human dignity, but restores it when it is violated.

Desert Tracings Sep 24 2020 A skillful translation of six classical odes of pre-Islamic Arabia. According to legend, the Bedouin tribes of pre-

Islamic Arabia held poetry competitions during annual fairs near Mecca. The wining poems called Mu'allaqát, or Hanging Odes, were embroidered in gold on banners and suspended from the walls of Arabia's most sacred shrine, Ka'ba. *Desert Tracings* is a translation of six classical sixth to eighth century odes. Arabic codes (qasidas) traditionally begin with the relationship of the lover to the loved. Usually set at opening in the beloved's abandoned desert campsite, where the only evidence that remains is tent marks and torrent beds in the sand - "naked tracings,/ worn thin, like inscriptions/ carved in flat stones" - the qasida moves gracefully through the thematic parts, the lover's grief, the quest, and the final acceptance of a world deprived of the beloved. Like the oryx-doe trapped within the unyielding cycles of the desert world. As Michael Sells writes in his introduction, the qasidahs been overshadowed in the West by other Arabic literature, such as *The Arabian Nights*, but the qasidais the primary literary tradition in both pre-Islamic and Islamic Arabia. The remarkable richness of language and range of mood captured in theses translations help explain their enduring fascination.
